A licensed sovereign test and evaluation range located in Outback New South Wales owned and operated by **Lightforce Group.**

# Klondyke Range Complex

The Klondyke Range Complex, located on Klondyke Station in rural New South Wales, is owned and operated by Lightforce Group's Paroo Pastoral Company.

This licensed testing and firing range was originally developed for product research, development and testing of a variety of firearms and related products.

The range facility, specifically enables for the test and evaluation of complex systems to ensure that the systems and platforms that Defence and Law Enforcement rely upon are safe, effective, efficient, and ethically sound.

The Lightforce Group's Klondyke Range provides a robust sovereign test and evaluation capability of military and law enforcement systems and platforms. It is a capability enabling the full turnkey solution within Australia, from design, development through test and evaluation, certification and systems assurance (T&ECSA).

## About Lightforce Group

For over 40 years, Lightforce has been at the forefront of innovation across its range of products. Every one of its products is made and tested for Australian conditions. Based in Adelaide, Lightforce's state-of-the-art research, development and engineering teams harness decades of experience and an innovative spirit to stay ahead of the curve. There's no compromise on quality. Klondyke Range Complex, owned by Lightforce Group, is part of a group of companies that includes the following businesses:

- **Lightforce**, manufacturer of vehicle mounted driving lights, handheld search lights and automotive accessories
- **Nightforce Optics**, manufacturer of precision rifle optics
- **Ace Precision Rifle Systems (APRS)**, a civilian precision competition rifle manufacturer
- **Force Ordnance**, research, development and production for military and law enforcement
- **Horus Reticle Systems**, owner of numerous military and consumer patents
- **Gunforce**, a retail firearms outlet
- **Paroo Pastoral Company**, pastoral properties.

**FORCE ORDNANCE**

## Five Ranges Available

**Range One** This range is 12 km long with shelter, facilities and mounds at various distances out to 2,286 metres. Designed for small arms (up to and including 12.7 mm). This range is also approved for 25mm, 30 x 113mm and 30 x 173mm cannons.

**Range Two** This is a long distance, 20 km, 120mm cannon range and also suitable for all smaller cannons and small arms.

**Range Three** This range is just the solution if you want to test at distance. At 36km and up to 120mm capability, it can be used to stretch the capability limits of a weapon system.

**Range Four and Five** With an elevated position this range is set up for long range marksmanship training. Range Four is a 360 degree, 4,000 metre .338 range while Range Five is a 284 degree, 7,000 meter .50BMG (12.7 mm) range.

## Location & Facilities

Klondyke Range Complex is located approximately 800km north-west of Sydney (980km by road). The nearest township is White Cliffs, 70km to the south-west. Fully catered accommodation for up to ten people is available at Tongo Station, a short drive to the north.
